Claims and Litigation Management

Investigative Service Guide

Licensed, Bonded, Insured -60 Years of Industry Experiences

Discrete and Covert WC/Liability Surveillance

Claim Field Investigations and Photos

Statements, Witnesses, File Reviews, Audits

Extant is a premier, multi-line, insurance investigation firm. Our staff conducts robotic, aerial, and manned surveillances, field investigations, and supports litigation needs. We provides clients with Workers' Compensation, liability and reinsurance field expertise. Clients are guaranteed professional services with our 60 years of combined integrity, knowledge, hard work, and dedication. We are driven to produce timely, honest work products which protect our business partner's bottom line.

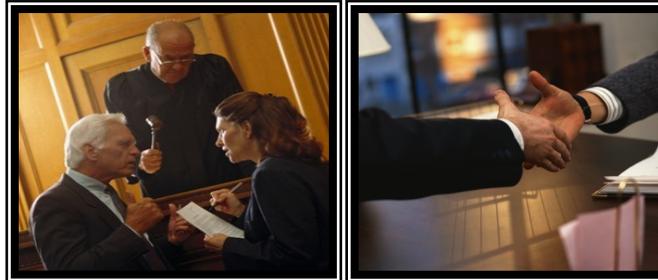

Extant's founders are approachable to discuss cases for alternative approaches, accountability and results *-everyday*, unlike competing larger global firms. Our geographical reach remains flexible and *resilient*-especially in areas where other firms can't get to or have already failed in. We strive to out perform our competitors by paying closer attention to the environments we are placed in. For example, we are proud to pick up another firm's unsuccessful surveillance attempt and with the proper conditions, we work to turn around their poor results by producing valuable video evidence.

EXTANT's Services

- All Lines Surveillance/Photos
- WC Wellness/Activity Checks
- Backgrounds
- UW, Claims, Reinsurance Consults

(Primary, Umbrella, Excess Insurance, GL, Auto, WC, Med Mal, PL, Transportation, Life/Health, Manufacturing, Retail, Hotels, Public Entity, Construction, School Districts, Financial Institutions, Habitation, Reinsurance/Retrocessionaire work etc.)

EXTANT Managing Adverse Risk By Standing Above the Rest

Demands placed on Claim Adjusters may exceed their internal and external investigative reach. **Extant** scours electronic data in support of factual findings. We then bring the information into the field for a more thorough locus investigation. There are no shortcuts or guess work.

Field time is better managed enabling "realized cost savings" for our clients. Our technological advancements provide greater opportunities for more thorough work as well as discovering the plaintiff's activities.

“Extant promises that our fees will not be **undercut** by volume driven firms”
