Managing Adverse Risk-Standing Above the Rest

Insurance Investigations Service Guide

Licensed, Bonded and Industry Experienced
- Since 1979 -

Extant is a premier, multi-line, insurance investigation firm. We conduct claim field investigations, surveillance, manage and support litigation needs and provide clients with consulting insurance related services in the primary, umbrella, excess insurance and reinsurance areas. Whether we are working in the field investigating, in the Judge's chambers negotiating a case, in the office reviewing files or conducting off-site claims auditing... our clients quickly learn about our professional delivery, integrity, and expertise which drives us to protect their bottom line.

Clients need to *spend less money wisely* and rely on stellar firms like **Extant**. Unlike impersonal, volume driven firms, **Extant's** executive team is accessible, participates in overseeing assignments, and tracks performance results closely. Our focus guarantees geographical coverage in areas other firms can't get to or do not have the field supervisors who are familiar with the ground that must be canvassed. **Extant** out performs national volume driven firms by completing unsuccessful attempts by others-with precision, detail and the experience needed to "break" the case.

EXTANT

Extant believes in having strong *service* orientated partnerships, individual working relationships, transparent communications and timely exceptional work products.

Claim offices are charged with the ever-resounding message that less is more and they must do more with less. This necessitates the need for a cost effective and efficient vendor partner.

Extant provides a promise that our fees will not be undercut by volume driven firms.

Business intelligence is key to unlocking analytics and data mining on losses. This demand exceeds the Company Adjuster's time and internal reach. **Extant** scours data in support of factual findings. This enables overall "realized cost savings" both in the short term and long term, as technological advancements provide greater opportunity for uncovering detail. This then leads to good faith damage and defense information sharing for more accurate Client reserve projections.

445 Hamilton Ave. 15th Floor
White Plains, New York 10601
